State: 12. August 2013

Personal Data

Name:	AID-lu_1.9.4.4
Year of birth:	1978
Nationality:	Romanian
languages:	German, English, Romanian
EDP experience since:	2000
Disposable:	according to agreement
Place of action:	according to agreement
Qualification:	University of Mathematics and Computers – specialization Software developer Graduate as Mathematician and Software Developer College of Computers Science – Computers technologies Graduated as Dipl. Engineer

Departments

Mobile Telecommunication 4G Lte

Certificates | Trainings

HP ProCurve Campus LANs Graduate: HP Master Accredited System
Linux Professional (LPIC-1) Certified
Cisco Certified Internetwork Expert Graduate : CCIE#21701 R&S
SNPA - Securing Networks with PIX and ASA Graduate: Junior Cisco Security Specialist
Siemens Management Centre - Project Management

Sectors

Telecommunication

Operating Systems

Systems: Operating System environments (Linux, Solaris, FreeBSD, IPSO, Unix) together with most popular network application and system daemons in standalone and cluster base configurations.

Programming

C/C++
Java (Jbuilder)
Visual Basic
HTML
Perl
JavaScript

Network Communication

Mobile Communication: extensive experience in the 3G/4G Mobile Packet Core, handling of 3GPP standards, interfaces, protocols, traces, messages for GSM, GPRS, UMTS, HSDPA and LTE.

I've more than 7 years experience in Mobile Communication

Hardware

Internet Technologies:

Extensive experience with Cisco equipments, Protocols & Services , Security, Network Area (LAN, WAN), Network Technologies (Cable Modems, ISDN, Routing/Switching, VPN), Routers/Switches. Very knowledgeable with routing protocols (BGP/ IS-IS/ OSPF/ EIGRP), MPLS VPNs, Layer 2/3 security. Extensive experience with Cisco medium hardware platforms (such as the 7600 and 6500 series), Juniper (EX4500 and MX960) and various security appliances.

Competencies:

I have hands-on experience and knowledge of lab test equipment including Protocol Analyzers, Traffic Generators, Application Simulator tools combined with strong technical skills and depth knowledge of IP networks and networking protocols (WAN and LAN) and the last but not the least I have the ability to handle critical & stressful situations, to successful support the project.

Products | Standards | Experience

- Design, planning and architecture of SGSN, GGSN, PCRF, MME, S/P-GW, IMS, OCS and RADIUS
- Expertise with LTE Core Network, related interfaces (S1, S1u, S6a, S5, S4, S11) and protocols (GTPv2, S1AP, Diameter stack)
- Expertise PCRF/IMS and Gx, Gxx, Rx interface
- Expertise with Prepaid charging methodology as well as with Prepaid interfaces / Protocols (Diameter, GTP', Radius,), including content billing features (Deep Packet Inspection techniques), CG and OCS
- Network / Security Audits. Expert in Security Concepts used within Mobile PS Core
- Deep extendable knowledge about IP related VAS platforms (WAPGW, MMSC, Video-Streaming) and mobile data optimization
- Good experience with the Protocol Emulators and with the Analysis of the Results from functional tests, load tests and Network KPI (including TCP/HTTP/RTSP/MMS/WAP1.x analysis and related Statistics)
- Extensive experience and knowledge of DPI (deep packet inspection -> L7+) and lab test equipment including Protocol Analyzers, Traffic Generators and Application Simulator
- Expert in GGSN and S/P-GW Load and Stability tests using Landslide from Spirent and IXIA
- Consultant in Multivendor IOTs at Mobile Customers Site.
- TAC Support and Customer Consulting for Mobile Packet Core products (Cisco CMX, SCE8K DPI, Nokia FlexiISN, FlexiNG, Sandvine Suite).
- Database Planning for all Cisco platforms used within CMX Solution for 2G/3G Mobile Networks (SAMI/CSG/GGSN/SSG based on 7200/6500/7613/Sup720/MWAM/SAMI/CSM Hw) and in depth experience with ASR9K and Cisco IOS XR
- Commissioning, Installation and Troubleshooting of Juniper Junos Networks on EX4500 and MX960 Ethernet Switches
- Installation and commissioning for the Cisco Service Engine (SCE8000), Cisco Subscriber Manager and Cisco Collection Manager
- Emergency support 24h/day for Cisco CMX products and NSN FlexiISN/GGSN

Senior Expert in design, planning and delivery of high-performance IP technology infrastructures and applications used within GSM, UMTS and LTE. I'm extensively qualified in all facets of projects life cycle, from initial feasibility analysis and conceptual design through implementation, documentation, audits, user training for SGSN, GGSN, MME, S/P-GW, PCRF and enhancement in large international corporate environments. I have strong international networking with a proven ability to build and manage creative Mobile PS Core networks (2G/3G and 4G) in order to achieve the Customer demands. I have more than 7 years experience in Mobile Communication

Projects

Projects: Germany -> Vodafone, O2 Telefonica and E-Plus; China CMCC, Taiwan -> TWM; Australia -> VHA; France -> SFR; Finnland -> Elisa; Brazil -> Telus and TIM; India -> Barhi; Korea -> KT and SKT; Belgium -> Belgacom; Romania -> Vodafone. For most of the projects I have been traveled on-site for customer support and consultancy with project integration
