Products | Standards | Experience

Messaging/Groupware:

Exchange; Lotus Notes; Groupwise; sendmail

Konfiguration Management/Monitoring Tools:

Dameware; Hyena; VNC; PcAnywhere; ZENWorks-Workstationbrowser; ConsoleOne; NWAdmin; Compaq (System) Insight Manager; HP Openview; BMC-Patrol; Microsoft Operation Manager 2000 (MOM); Unicenter TNG Remote Control; REMCON; RDP

Backup and Disaster Recovery:

Arcserve; NETAPP; Backup Exec; NetBackup; HP Data Protector; Tivoli Storage Manager (TSM)

Ticketsystems:

ARS Remedy; SC; Altiris; HP Openview; PoB21; Cosima; HP Service Desk; HP Service Manager

Inventory Management:

Altiris; SMS; Unicenter TNG Inventory Solution; SMS

Documents.-/Webserver:

Apache; IIS; SharePoint Portalserver

Security/Patchmanagement/Firewall:

SUS; ISA-Server; Checkpoint Firewall; ipfwadm; IP-Tables; IP-Chains; SMS; Shavlic; VMware Patch Management

Terminalserver/Virtual Server:

Virtual PC; MS-Terminal Server; Citrix Metaframe; VMWare ESX 2.x, 3.x; Virtual Center; HA; DRS

Software distribution:

ZENWorks; SMS; Altiris Deployment Solution und Server; Windows Policies
Unicenter TNG Software Delivery Options

Migration:

ADMT2; P2V; VMware converter

Projects

Period: 04/2012 - 09/2013

Customer: KFW Group Bank in Frankfurt

Project description: **Server Deployment and Hardware removal**

- steering board for 3rd party vendors to implement there applications
- Implementation from Windows 2003 (x32 und x64) Server
- Implementation from Windows 2008 R2 Server
- write Windows 2008 R2 Hardening Guides
- deployment of work orders
- deployment of worker documentations
- advice 3rd party vendors to deploy there products
- advice, consult and doing of IT removals
- Asset Management with HP Asset Manager and HP Service Desk
- working for Incidents and Problems with HP Service Manager
- deployment and doing Changes with HP Service Manager
- analysis of the system environment and develop, write a system documentation

Tools / Languages: Windows 2008 R2, 2003 x32 und x64, Windows XP and Windows 7, RDP, VMware ESX Server 4.x, VSphere Client, Windows 7, SCCM 2007 and 2012, HP Asset Manager, Tivoli Storage Manager, Windows 200x (x32 u. x64), Sharepoint 2010, HP Service Desk, Remcon, HP Operationsmanager, HP Service Manager; div. Tools

Period: 09/2010 - 03/2012

Customer: Bayer AG BBS, Leverkusen

Project description: **Project virtualize Server; operational and Transition Dynevo**

- removal from the application server into the Bayer Datacenter
- support from third vendor customers to implement there applications
- shutdown the servers and services
- Implementation and administration of Windows 200x (x32 und x64) server.
- change the applications from linux to windows
- programming from batch files and shell scripts
- administration Trend Micro server protect
- patching the environment with LANDesk Patchmanagement

	• creation and monitoring from Nagios Groundwork policies • monitoring and troubleshooting the Backups with Tivoli Storage Manager • creation from Power Outage Emergency Plan • coordination for internal IT removals • administration of the virtual environment with ESX 3.5 DRS und HA • administration of the ESX server with virtual Center • Asset Management with Quadriga • consolidation (P2V) of the linux and windows application server • solve incidents and problems with HP Openview Service Center • analysis of the environment and the creation of the system documentation • removal of the Data from the Netapp NAS • ordering and creation of SSL certificates • setup and administration of sharepoint 2007 and 2010
Tools / Languages:	Windows 2008 R2, 200x, XP, 7, RedHat, CentOS, RDP, VMware ESX Server 3.5, Virtual Center 2.5, VMware Converter, LanDesk, Trend Micro OfficeScan, HP Service Center, Tivoli Storage Manager, Quadriga, Putty, WinSCP, OpenSSL, Sharepoint 2007, 2010, MSSQL 200x
Period:	06/2010 - 09/2010
Customer:	RWE Trading, Essen
Project description:	Operation Support for Cluster and SQL Server • Administration of the Windows Applicationsserver with Windows 2003 and 2008 • Administration of the Cluster with Windows 2003 and Windows 2008 • Solve Incidents with HP OpenView Service Center 6.2 • Monitoring of the Symantec Virens Scanner • Administration of the SAN Storage Systems • Administration of the DFS Server • Patchmanagement with the SCCM Client • Analyse the System environment with creation of the System Documentation
Tools / Languages:	Windows 2000 / 2003 / 2008, Windows XP, VisionApp; Hyena, Office 2003, HP Service Center, SANSymphonie, vSphere Client; SCCM Client

Period: 11/2009 - 05/2010
Customer: Lufthansa, Frankfurt

Project description: **Project leading CoBa und VTP1 Servermigrations for Windows Systems in the Datacenter from Lufthansa**

- Compilation of the Analysis
- Compilation and Coordination for the migrations.
- Coordination the removals with the Servicemanager.
- Coordination the removals with 3rd party and the helpdesk team.
- Compilation from the Workflowdocuments for the Helpdesk Team.
- Compilation from Changes and Tasks for the migrations with Peregrine Service Center.

Tools / Languages: Windows 2000 / 2003 / 2008, Windows 7 (x32 und x64), RDP, Office 2003 / 2007, Peregrine Service Center, diverse Tools

Period: 04/2009 - 11/2009
Customer: T-Systems for Inselspital Bern, Switzerland

Project description: **Project Leading Server Transition T2P Migration**

- Compilation of migration documents and the documentation of operation
- Planning and coordination from the migrations
- Define IT processes
- Moderate the Migrationmeetings
- Support of the vendors to install their products
- Creation and implementation of Changes / RFC`s with Cosima6 (Remedy)
- migration of the application to hardware or virtual machines
- Handover the applications to the operational Stuff (T2P)

Tools / Languages: Windows NT, 2000, 2003, RDP, Cosima 6, Office 2003 and 2007, div. Tools

Period: 10/2008 - 03/2009
Customer: Actelion Pharmaceuticals LTD. (Switzerland)

Project description: **Projekt virtual server and ESX upgrade**

- Update from the ESX Server to 3.5
- Implementation from new ESX server 3.5
- P2V from the physical machines into the virtual machines
- Creation from the documentation and the Service Description
- Administration of the Windows Server environment

	• Administration of the ESX server environment • Work on Incidents und Problem-Records with PoB21 • Provide new virtual Machines with Windows 2003, 2008 x32, x64 und RHEL5
Tools / Languages:	Windows 2003 (x32 und x64), Windows 2008 (x64), RDP, VMware ESX, V-Motion, P2V, Virtual Center, WSUS, POB21, Nimbus
Period:	04/2005 - 10/2008
Customer:	Heidelberger Druckmaschinen AG
Project description:	Server consolidation and Server administration • Implementation and administration of Cluster with Windows 2000 und 2003 (x32 and x64) • Implementation from Windows 2000 and 2003 Server (x32 and x64) • Administration from the Trend Micro Information Server and Server Protect • migrate the Trend Micro environment to Symantec Antivirus • Implementation von MS Patches and Service Packs with Update Expert • Implementation von MS Patches and Service Packs with SMS 2003 • Implementation von MS Patches and Service Packs with Shavlik • Support the vendors to implement their Products • Monitoring from the Systems with HP Openview • Monitoring the Backups with HP Data Protector 5.1 und 5.5 • connection from Server to SAN HP Storage Works EVA 5000 and EVA 8000 with MPIO • Creation from a Power Outage Emergency Plan • Creation and implementation from Windows 2000/2003 Hardenings • coordination from IT movements to the Datacenter • Implementation of the virtual environment with VMware 2.x und 3.x incl. VMotion, HA and DRS • Asset Management with HP Service Desk • migration from the server to VMware with P2V and VMware Konverter • Administration from the virtual server with Virutal Center • Migration from Web and Applicationsserver from Windows 2000 to Windows 2003 • Creation and work onIncidents und Problems with Service Desk and Magic
Tools / Languages:	Windows 2000, 2003 (x32 und x64), RDP, VMware ESX, V-Motion, P2V, Virtual Center, Clusteradmin, Update

Expert, Trend Micro Information Server, HP Openview Service Desk, Data Protector, HP Openview Operations Manager, Remedy (Magic), CommandView (EVA)

Period: 10/2005 - 12/2005
Customer: Smiths-Heimann GmbH

Project description: **Altiris Workshop**

- Making workshops to create a Helpdesksuite with Altiris 6.x
- Architekture Workshop
- Altiris software Delivery workshop
- Troubleshootings in the Altiris environment
- schooling the Stuff to administrate the Altiris Suite and Deployment Server

Period: 07/2004 - 12/2004
Customer: SR Technics, Switzerland

Project description: **New Office. Appropriation of an Altiris Solution and VIP Support**

- Planning and implementation of an Altiris Suite 6.x surrounding with the modules: Helpdesk; Asset Control and Contract Management; deployment server; Inventory Solution
- Costumizing of the proliferous-field according to requirements of SR Technics
- Mapping of the ITIL processes under Helpdesk and Asset Management Suite
- Compilation of instruction material for the particular modules
- Instructing of specialised staff with the module Helpdesk, Asset Management
- Administration of the backups utilising Veritas Netbackup (AIT Library)
- Administration in the field of Windows Client (VIP Support)
- Migration of the user to ADS
- Planning and implementation in a field of patch-managements
- Planning and implementation of a remote administration-strategy
- Compilation of scripts for the data migration
- Compilation of T-SQL scripts for analysing purpose in Altiris
- Compilation of master PC and software packages for image-arrangements

Tools / Languages:	• Planning and implementation of the backup-strategy of the SQL server • Planning and implementation of an HP Insight managing field • Administration of the Windows 2003 printer clusters • Migration of post-boxes from Notes 4.x to 6.5 incl. adjustment to the iPAQ's • Compilation of a Load and Performance test Windows XP, Windows 2003 Standard Edition, Dameware, Carbon Copy, Altiris, VMWare, IIS6, SQL Server 2000SP3, Lotus Notes 6.5, Office 2003, OnBridge, Query Analyzer, SySprep
Period: Customer:	04/2004 - 07/2004 Esprit Europe in Ratingen
Project description: Tools / Languages:	Support Helpdesk with Macintosh Support (world-wide) • Remote-administration in the field of MAC Client • Rollout-support in the field of MAC Client • Remote-administration in the field of Windows Client • Remote-administration of the router-connexion • Administration in the field of Active Directory • Administration in the field of Lotus Notes • Compilation and releasing of Remedy Tickets • Monitoring of the backup processes utilising Veritas NetBackup • Monitoring of the WLAN net • Administration in the field of AS/400 • Administration of the Windows 2000 Printer Cluster Windows NT, 2000, XP, 2000, 2003 Server, MAC OS 7.X, 8.X, 9.X ,10.3, Timbuktu, Dameware, VNC, Hyena, Remedy, Office, Unicenter TNG 5 u. 6, Adobe Suite, Languard, ethereal, Notes, NetBackup
Period: Customer:	11/2003 - 01/2004 CompuNet für Robert Bosch GmbH
Project description:	Compilation of an asset management solution using the Altiris Inventory Solution • Planning and implementation of an inventory solution testbed • Planning and implementation of an Inventory Solution productive surrounding • Test and compilation of collections, policies and reports • Compilation of a database- and webserver-field for Altiris utilising SQL 2000 and IIS5

	• Compilation of documentation and job instruction for the Helpdesk • Implementation of security-settings and compilation of test reports • Schooling in exposure to the Altiris Agent and the Inventory Solution • Compilation of SQL statements and XML-scripts for the data acquisition • Inventory Phase I approx. 3500 Clients
Tools / Languages:	Windows 2000 Advanced Server, Windows XP, MS-SQL 2000, Altiris Inventory Solution, Office XP, XML-Spy, IIS5
Period:	07/2003 - 09/2003
Customer:	German insitute for medical documentation and information
Project description:	Windows XP rollout / migration • Stocking-up of the Siemens Clients on Windows XP • Migration of the POP3 accounts to IMAP4. • Schooling of the user in the field of Windows XP and mailclients • Provision with mySQL databases • Installation of tele-work centres with PcAnywhere • Administration of the Clients and exchange servers • Provision of the Palm Pilots and the data-matching with Exchange 5.5
Tools / Languages:	Windows XP, NT, 2000, Office XP, mySQL, Netscape, Opera, Pegasus, Mozilla, GnuPP, Palm, Adobe Suite, PcAnywhere
Period:	05/2003 - 07/2003
Customer:	EDV-Beratungsunternehmen FRS GmbH
Project description:	Project virtual database-servers for online-clients • Conception and implementation of an ADS-field • Provision with an IIS5 testbed for Intranet-sites • Planning and implementation of a backup-strategy for all servers • Planning and implementation of a virtual database-server for the particular clients • Publication of the virtual server for VPN-accesses in the DMZ • Compilation of routing-tables and port-detours (PAT) • Administration in Client and the field of the server (NT/2000) • Provision with a backup-solution for DSL-access • Installation and administration of a SQL testbed

Tools / Languages:	• Implementation of an USV-solution with APC and NMC Windows 2000 Server und Pro., Remote Administrator, MS-SQL 2000, Internet Information Server (IIS5), PC, Winroute
Period:	03/2002 - 05/2003
Customer:	T-Systems DTS AG, Switzerland
Project description:	Project standardisation Inselspital • Implementation and coordinatoin of data ascertainment and compilation of target / actual analysis (feasibility study) • Rollout preparation and coordination of the rollout team • Quality assurance of the Clients via Altiris • Schooling of the rollouter in exposure to Altiris • Implementation of rollouts • Rollout-reconditioning and quality assurance of the expanded clients • Administratoin of NDPS-printers • Stocking-up and personalisation of the clients • Planning and implementation of the stocking-up surrounding • Administration in Client and the field of the servers (NT/2000, Novell, Mac) • Draft and compilation of scripts and documentations for the rollout • Schooling of the users in exposure to the new Client, as well as the expanded software
Period:	09/2001 - 03/2002
Customer:	DeTelmmobilien, T-Systems
Project description:	Project migration und rollout • Administration Windows NT and Windows 2000 servers and clusters • Migration of the Windows NT 4.0 servers to Windows 2000 • Centralisation USV, virus-scanners and backup-strategy • Installation and Configuration of the Windows 2000 serves • Coordination of the Rollout and acceptance of the serves • Monitoring of the servers with remote insight boards

- Configuration backup for NetApp Unix servers and Arcserve 2000
- Compilation of backup-strategies for NT and 2000 servers
- Troubleshooting of CIM traps and ARS (Remedy) Tickets
- Approx. 70 Netware servers, 400 Windows NT 4.0 / 2000 / SNA servers, 3500 Workstations
- Netware5.1, NDS V8, NDS4NT, ZEN-Works2.1/3.0 MS-SNA 3.0 servers, Citrix Metaframe 1.8, Bordermanager 3.5
